Benjamin de Bruijne

Digital Technology Subject Matter Expert (DT SME) · CSV validation & GxP compliance · IT/OT governance, cybersecurity & AI

Rhode-Saint-Genèse (Brussels), Belgium · debruijneb@gmail.com · linkedin.com/in/benjamindebruijne · benjamindebruijne.com/en/biopharma · Belgian · Freelance

PROFILE

Senior IT consultant (20 years of systems in production), **Digital Technology SME at a global biopharma leader** (via Computacenter) since September 2025, in a GxP-regulated environment: computerised system validation (**CSV, GAMP 5**), **21 CFR Part 11 and EU GMP Annex 11** compliance, data integrity (ALCOA+), project lifecycle governance (GP0→GP4), IT/OT governance and industrial cybersecurity (ISA/IEC 62443). I unblock technical and architectural issues, translate digital topics for business and management, validate projects before go-live and train teams. Two complementary strengths: the rigour of regulated environments (pharma, banking, public sector) and **AI integration and automation in production** (OpenAI and Anthropic APIs, RAG, voice AI, n8n). I don't deliver slides: I design, document, deliver and train.

CORE SKILLS

CSV validation: GAMP 5 (2nd ed.), CSA, URS, FS/DCS, risk assessment, IQ/OQ/PQ, traceability matrix (URS → FS → DCS → tests), validation plans & reports, change control, periodic review

Project governance: GP0→GP4 gates, project charters, RACI/RASIC, project kits and templates (DCS, TM, IQ/OQ), documentation quality review, SOPs, Knowledge Academy

AI & automation: AI governance under GxP, EU AI Act, OpenAI / Anthropic APIs, RAG, agents, voice AI (Twilio, ElevenLabs), n8n, Make, Zapier, Power BI, SQL

Regulatory: GxP (GMP/GLP/GCP), 21 CFR Part 11, EU GMP Annex 11, ALCOA+ data integrity, electronic signatures, audit trails, inspection readiness, NIS2, GDPR (health data)

IT/OT & cybersecurity: ISA/IEC 62443, NIST CSF, network segmentation, hardening, privileged access, Active Directory / Azure AD, coordination with IT Security & Compliance, CISO, Audit

Tools & development: ServiceNow (ITSM), Microsoft 365, SharePoint, Teams, Jira/Confluence, Git/GitHub, React, Node.js, Python, PHP, Postgres, Supabase, Azure SQL

PROFESSIONAL EXPERIENCE

Digital Technology Subject Matter Expert (DT SME), GxP environment

Sept. 2025 – present

Belgian biopharmaceutical group (global leader), Braine-l'Alleud site · Freelance via Computacenter · Labs, Manufacturing, Quality, IT Security

Strategic and technical support for the digital transformation of GxP-compliant industrial and laboratory environments (GP0–GP4 scope).

- **Digital reference** for Labs / Manufacturing / Quality teams: resolution of complex technical and architectural blockers, tech ↔ business translation, review and validation of development, infrastructure upgrade and transformation plans; advice to management on emerging technologies and AI.
- **CSV validation:** authoring and management of 15+ GxP deliverables (URS, DCS, CSV strategy, validation plans, IQ/OQ/PQ), consolidated traceability matrix, harmonised audit-ready IQ/OQ packages, controlled change procedures and logging.
- **GP0→GP4 project lifecycle governance:** gate definitions, entry/exit criteria, RACI roles, standardised project kits (project charters, DCS, review checklists).
- **IT/OT governance and cybersecurity:** IT/OT application inventory, flow and dependency mapping, risk/impact reviews (security, quality, continuity), strengthened network segmentation and workstation/server hardening, clarified privileged access and periodic reviews; coordination with IT Security & Compliance.
- **Field workshops** with QA, IT Security, Lab Managers and Operations: review of operational pain points (change, access, deployments, audits), alignment on first-time-right criteria.
- **Knowledge capitalisation:** operating procedures, templates, playbooks, internal training (Knowledge Academy); progress and quality dashboards (SQL, Power BI).

Environment: ServiceNow / ITSM · Microsoft 365 (SharePoint, Teams) · Azure AD · Jira/Confluence · SQL · Power BI · CSV (GAMP 5) · ISA/IEC 62443 · NIST CSF · internal SOPs.

Client scope and data confidential (GxP). References available upon authorisation.

Digital & AI consultant: scoping, automation, production rollout **2026**

Freelance · services company (Evere) and bailiffs' office (Ixelles)

- Scoping then automation of the invoicing process (from timesheets to client approval): shared tracking cockpit, action log, monthly export, audit trails.
- Generalist tooling and automation assignment around accounting: needs, tool selection, integrations.

Voice AI Developer & Consultant, automated appointment booking **2025**

Wellcare Medical Center (multidisciplinary healthcare centre), Waterloo · Freelance

Multilingual voice AI system (FR/NL/EN) managing medical appointments autonomously: reduce repetitive call handling for administrative staff, enable 24/7 scheduling, deliver an inclusive patient experience.

- Needs analysis and specification drafting with medical and administrative staff; functional use cases and conversational scenarios in three languages, voice prompts aligned with medical specialties.
- Fully automated pipeline: caller identification, data capture, slot suggestions, confirmation; Twilio voice routing, custom webhooks, patient database, synced agenda logic.
- Patient data security and GDPR compliance by design (health data, consent, logging); user and administrator guides; user testing and progressive production rollout.

Environment: Thoughtly · GPT API · ElevenLabs · Twilio · Supabase · Google Calendar API · Zapier / Make · Notion AI.

Founder & consultant, digital strategy, automation & AI **2009 – present**

Independent, then Astérisme SRL (2026) · Belgium · SMEs, start-ups, associations, institutions

- 200+ web projects built or managed since 2005; 40+ organisations supported: audit, tool selection, implementation, documentation (guides, process maps, automation blueprints), team training, performance reviews and analytics-driven iterations.
- Custom workflows: quote generation, smart forms, lead processing, task automation (Make, Zapier, n8n, GPT API); WordPress and React websites, funnels, SEO / GEO, copywriting.
- Business creation advisory: business plans, financial forecasts, offer design; continuous technology watch and tool recommendations. AI Operator since 2019.
- Own products in production: **Observatory** (measures SME visibility across 4 AI engines, frozen and audited protocol, sampled human validation), **Service-Volée** (76,000 player profiles, scheduled crawler, Postgres, PWA), **BiblioPulse** (personal library, 44M ISBNdb references, AI recommendations), **Pulse Noir** (community of 2,150 readers, author hub, newsletters, Supabase/OpenAI automations).

Founding president, sovereign digital infrastructure **2026 – present**

Singulr ASBL (non-profit), Brussels

- Digital commons operated and hosted in Belgium under Belgian and EU law, 100% open-source stack (Git forge, bulk mailing), an alternative to non-EU jurisdictions (CLOUD Act, FISA 702). Singulr Health 2026 event (ethics and economics of AI in healthcare, ~50 attendees).

Program Manager, employment liaison & digital process design **2009 – 2011**

Mission Locale de Schaerbeek (public employment service), Brussels

- Led a digital job-matching platform: tool based on NACE codes and competency frameworks (inspired by IMTB / Actiris), mapping of hiring needs of 40+ companies (STIB, JC Decaux, Brussels Airport), formalised job-specific skill sets and corresponding training paths.
- Semi-automated pre-qualification process; coordination of trainers and municipal partners; reports, policy briefs and impact assessments for institutional partners; continuous programme improvement.

Internal consultant, process optimisation & digital tooling **2006 – 2008**

Fortis Bank, Litigation & Succession departments, Brussels

- Two-year assignment analysing and streamlining operational workflows and internal tools in a regulated banking environment (AML, records retention): on-site immersion, identification of inefficiencies and documentation gaps, optimisations to unify practices.
- Partnership with IT to align tools with user needs; user manuals, training, change management (feedback collection, adjustments, progressive rollout); scoping documentation, stakeholder briefings and project reports.

French teacher & digital innovation advisor **2001 – 2024**

Secondary education (WBE), Brussels · dual role: teaching + digital transformation and IT support

- Taught French (literature, writing, argumentation); mentored trainee teachers.
- Internal digital advisor: tool selection, first-level IT support, liaison with administration; digitised lessons and resources (collaborative platforms, interactive content), school website.
- Integrated AI tools into school operations (planning, content, student monitoring); internal staff training (Office, EdTech, AI); internal procedures for content, communication and data security; communication campaigns.

EDUCATION

- **Master's degree in Labour Sciences** (training management and professional transition, project management), Université libre de Bruxelles (ULB), 2004–2006
- **A.E.S.I. in French & History** (secondary teaching degree), Haute École de Bruxelles (HEB, Institut De Fré), 1998–2001
- **Project Manager certification**, Bruxelles Formation, 2008–2009
- Continuing education, Solvay Brussels School (entrepreneurship and digital business)

CERTIFICATIONS

- Vibe Coding L5, Lovable (2026)
- DigitalMarketer (2016): Customer Acquisition, Customer Value Optimization, Content Marketing, Optimization & Testing, Social & Community Specialist
- Hootsuite Professional, Social Media Management (2014)

LANGUAGES

- French: native
- English: professional (C1), daily working language in pharma
- Dutch: working proficiency (B1)

INFORMATION

- Belgian national · Driving licence B
- Status: freelance, engagement through an intermediary possible
- Mobility: Belgium (Brussels, Walloon Brabant, Antwerp), hybrid; remote EMEA possible
- Availability: to be agreed, 2 to 4 weeks' notice
- Interests: writing (novel in progress), noir fiction, tennis, hiking

APPENDIX: TECHNICAL SKILLS MATRIX (SELF-ASSESSMENT)

Rating out of 5: 1 = Poor · 2 = Fair · 3 = Good · 4 = Very good · 5 = Excellent. Grid taken from the intermediary format (August 2025), updated October 2026.

Governance, compliance & validation	/5
CSV validation, GAMP 5, control documentation (URS, FS/DCS, IQ/OQ/PQ, TM)	5
GxP compliance, 21 CFR Part 11, EU GMP Annex 11, ALCOA+	5
Project governance (GP0→GP4, RACI, project kits, SOPs)	5
IT/OT governance & risk (ISA/IEC 62443, NIST CSF)	4
NIS2, GDPR (health data)	4
AI governance (EU AI Act, validation of AI tools under GxP)	4
Internal training, change management, Knowledge Academy	5

Enterprise tools & ITSM	/5
ServiceNow (ITSM)	5
Microsoft 365 (Office, Teams)	5
SharePoint	5
Google Workspace	5
Jira / Confluence	4
Trello, Notion	5
Ticketing systems (Zendesk, Freshservice)	5
Power BI (dashboards)	3
Remote control tools	5

AI, automation & productivity	/5
AI tools and APIs (OpenAI GPT, Anthropic Claude, Thoughtly)	5
Agents, RAG, prompt engineering	4
Voice AI (ElevenLabs, Twilio, IVR)	4
Automation (Zapier, Make, n8n)	5
Dev assistants & builders (Lovable.dev, Claude Code, Codeium, Bolt/Replit)	5
AI productivity (Notion AI, GitHub Copilot, NotebookLM)	5
Machine Learning	4
GEO / AEO / SEO	5

Security	/5
VPN	5
Anti-virus / endpoint protection	4
Access management, privileged accounts, access reviews	4
Network segmentation, hardening (IT/OT context)	3

Hardware	/5
PC	5
Laptop	5
Printers	5
Server hardware	4
Network hardware (routers, switches, hubs)	2
