Benjamin de Bruijne

PMO / Project Manager · IT & digital projects in regulated (GxP) environments · Governance, reporting, compliance

Rhode-Saint-Genèse (Brussels), Belgium · debruijneb@gmail.com · linkedin.com/in/benjamindebruijne · benjamindebruijne.com/en/biopharma · Belgian · Freelance

PROFILE

Senior project manager and PMO (20 years of IT projects delivered to production), **currently Digital Technology SME at a global biopharma leader** (via Computacenter), where I structure and run the governance of digital projects in a GxP environment: **GP0→GP4 lifecycle**, gates and entry/exit criteria, RACI, project kits and templates, deliverable quality review, risk and action tracking, progress and quality dashboards, coordination across Labs / Manufacturing / Quality / IT Security. Certified Project Manager (Bruxelles Formation), Master's in Labour Sciences (project management, change management). Programme manager in the public sector, internal consultant in banking, 200+ web projects managed as an independent. I keep the plan, the deliverables and the quality file together, and I speak the same language to business, IT and management.

CORE SKILLS

Project and portfolio governance: stage-gate lifecycle GP0→GP4, project charters, gates and go/no-go criteria, RACI/RASIC, steering committees, standardised project kits, SOPs, knowledge capitalisation (playbooks, lessons learned)

Planning and tracking: milestones and project plans, action and decision tracking, RAID logs (risks, assumptions, issues, dependencies), progress reviews, escalation, management reporting

Deliverable quality and compliance: documentation quality review, traceability matrix, CSV validation (GAMP 5, V-model: URS, FS/DCS, IQ/OQ/PQ), 21 CFR Part 11, Annex 11, ALCOA+, change control, inspection readiness

Risk and security: risk/impact reviews (security, quality, continuity), IT/OT governance (ISA/IEC 62443, NIST CSF), coordination with IT Security & Compliance, NIS2, GDPR

Stakeholders and change: business workshops, tech ↔ business translation, advice to management, training and adoption (Knowledge Academy), user documentation, change management

Tools: ServiceNow (ITSM), Microsoft 365 (advanced Excel, SharePoint, Teams), Jira / Confluence, Trello, Notion, Power BI, SQL, Git/GitHub; reporting automation (n8n, Make, OpenAI / Anthropic APIs)

PROFESSIONAL EXPERIENCE

Digital Technology SME, governance of digital projects in a GxP environment

Sept. 2025 – present

Belgian biopharmaceutical group (global leader), Braine-l'Alleud site · Freelance via Computacenter · Labs, Manufacturing, Quality, IT Security

Structuring and running the governance of digital transformation projects for GxP industrial and laboratory environments (GP0–GP4 scope).

- **Project lifecycle governance:** GP0→GP4 standardisation (gates, entry/exit criteria, RACI roles), project kits (project charters, DCS templates, CSV strategy, validation plans, review checklists), harmonised project process across teams.
- **Tracking and reporting:** progress and quality dashboards (SQL, Power BI), tracking of risks, actions and decisions, preparation of steering points, advice to management on roadmaps and the adoption of emerging technologies and AI.
- **Deliverable quality:** review and validation of development, infrastructure upgrade and transformation plans; authoring and management of 15+ GxP validation deliverables (URS, DCS, IQ/OQ/PQ), consolidated traceability matrix, audit-ready packages, change control.
- **Risk and security:** IT/OT application inventory, flow and dependency mapping, risk/impact reviews, remediation plans (segmentation, hardening, privileged access), coordination with IT Security & Compliance.
- **Stakeholders:** workshops with QA, IT Security, Lab Managers and Operations (operational pain points: change, access, deployments, audits), first-time-right alignment, resolution of technical blockers between teams.
- **Capitalisation and adoption:** operating procedures, templates, playbooks, internal training (Knowledge Academy).

Environment: ServiceNow / ITSM · Microsoft 365 (SharePoint, Teams, Excel) · Azure AD · Jira/Confluence · SQL · Power BI · CSV (GAMP 5) · ISA/IEC 62443 · NIST CSF · internal SOPs.

Client scope and data confidential (GxP). References available upon authorisation.

Project manager, process scoping and automation 2026

Freelance · services company (Evere) and bailiffs' office (Ixelles)

- Scoping then automation of the invoicing process (from timesheets to client approval): meeting minutes, action plan and milestones shared with the client in an online cockpit, decision log, monthly export, audit trails.
- Scoping assignment for tools and automation around accounting: needs, prioritisation, tool selection, implementation plan.

Project manager & developer, voice AI appointment booking system 2025

Wellcare Medical Center (multidisciplinary healthcare centre), Waterloo · Freelance

- End-to-end delivery: needs analysis and specifications with medical and administrative staff, use cases, planning, user testing, progressive production rollout, user and administrator guides.
- GDPR compliance by design (health data, consent, logging) built into the project plan; delivery of a FR/NL/EN system in production (Twilio, ElevenLabs, GPT API, Supabase, Google Calendar).

Founder & consultant, digital project management 2009 – present

Independent, then Astérisme SRL (2026) · Belgium · SMEs, start-ups, associations, institutions

- 200+ web projects managed or built since 2005 for 40+ organisations: scoping, scope and quotes, planning, vendor and client coordination, acceptance, go-live, documentation (guides, process maps, blueprints), training, performance reviews.
- Business creation advisory: business plans, financial forecasts, offer design; tool selection and technology watch.
- Own products delivered to production with method (specifications, automated tests, continuous deployment, frozen and audited protocols): Observatory, Service-Volée, BiblioPulse, Pulse Noir.

Founding president 2026 – present

Singulr ASBL (sovereign digital commons hosted in Belgium), Brussels

- Delivery of the Singulr Health 2026 event (ethics and economics of AI in healthcare, ~50 attendees, sponsors, programme, 4-language communication) and of the infrastructure (Git forge, bulk mailing).

Program Manager, employment liaison & digital process design 2009 – 2011

Mission Locale de Schaerbeek (public employment service), Brussels

- Management of a multi-partner programme: job-matching platform (NACE codes, competency frameworks), mapping of hiring needs of 40+ companies (STIB, JC Decaux, Brussels Airport), semi-automated pre-qualification process.
- Coordination of trainers and municipal partners; reports, policy briefs and impact assessments for institutional partners; indicator-driven continuous improvement.

Internal consultant, process optimisation & change management 2006 – 2008

Fortis Bank, Litigation & Succession departments, Brussels

- Two-year assignment in a regulated banking environment: on-site immersion, workflow analysis, identification of documentation gaps, optimisation proposals, partnership with IT.
- Scoping documentation, stakeholder briefings, project reports; manuals, training, progressive rollout and feedback collection.

French teacher & digital innovation advisor 2001 – 2024

Secondary education (WBE), Brussels

- Led the school's digitalisation: tool selection, deployment of collaborative platforms, integration of AI tools, staff training, internal procedures (content, communication, data security), website and communication campaigns; mentoring of trainee teachers.

EDUCATION

- **Project Manager certification**, Bruxelles Formation, 2008–2009
- **Master's degree in Labour Sciences** (project management, training management and professional transition), ULB, 2004–2006
- **A.E.S.I. in French & History**, Haute École de Bruxelles (Institut De Fré), 1998–2001
- Continuing education, Solvay Brussels School (entrepreneurship and digital business)

CERTIFICATIONS

LANGUAGES

- French: native · English: professional (C1), daily working language · Dutch: working proficiency (B1)

INFORMATION

- Belgian national · Driving licence B
- Status: freelance, engagement through an intermediary possible
- Mobility: Belgium (Brussels, Walloon Brabant, Antwerp), hybrid; remote EMEA possible
- Availability: to be agreed, 2 to 4 weeks' notice

- Vibe Coding L5, Lovable (2026) · DigitalMarketer (2016) · Hootsuite Professional (2014)

APPENDIX: TECHNICAL SKILLS MATRIX (SELF-ASSESSMENT)

Rating out of 5: 1 = Poor · 2 = Fair · 3 = Good · 4 = Very good · 5 = Excellent. Grid taken from the intermediary format (August 2025), updated October 2026.

PMO & project management	/5
Stage-gate governance (GP0→GP4), gates, RACI, steering committees	5
Project kits, templates, project charters, SOPs	5
Planning, milestones, action and decision tracking	4
RAID logs, risk/impact reviews, escalation	4
Management reporting, dashboards (Excel, Power BI, SQL)	4
Documentation quality review, traceability matrix	5
V-model / GAMP 5 (validated projects)	5
Agile / Scrum (short iterations, backlog, reviews)	3
Stakeholder management, workshops, change management	5
Vendor and integrator coordination	4

Governance, compliance & validation	/5
CSV validation, GAMP 5, control documentation (URS, FS/DCS, IQ/OQ/PQ, TM)	5
GxP compliance, 21 CFR Part 11, EU GMP Annex 11, ALCOA+	5
Project governance (GP0→GP4, RACI, project kits, SOPs)	5
IT/OT governance & risk (ISA/IEC 62443, NIST CSF)	4
NIS2, GDPR (health data)	4
AI governance (EU AI Act, validation of AI tools under GxP)	4
Internal training, change management, Knowledge Academy	5
